THIS GREAT ROOM is the heart of the apartment. It's the living room, dining room and entry. With 12-foot ceilings, an abundance of wonderful daylight streams through the large windows; at night the sheer curtains shimmer from lights recessed in the windowsills. The focus of the dining area is the large painting *Gold Shadows* by Kelly Stuart Graham. It glows under an oversize vintage Murano chandelier hanging over a dining table with seating for 10. In the sitting area, a comforting yet stylish ocean-blue and brown palette is supported by a custom rug, which has two distinctive pods that define the two seating areas. Another highlight: The 1940s chest from France at the entry is welcoming and elegant.
